Self-Service Fridge: open 24/7

We are a self-sufficient and direct marketing farm, inhabited by several generations and managed in the organic sense as a side business. Besides woods, green areas and a natural garden, there are cattle, horses, sheep, goats, pigs, chickens, quails, rabbits and bees - all on a small scale. But every plant and animal contributes to a healthy lifestyle.

Farm sale: Eggs directly from the farm

Products: Free-range eggs, quail eggs, meat packages of beef, pork, sheep and goat seasonally on advance order.
