Selling homemade propolis products.

For generations, our family farm "Grabahof" has been run with a lot of passion and love for nature and animals. In addition to cats, horses, calves, cattle, dairy cows and chickens, we also occasionally have pigs among our farm inhabitants, who enjoy their free-range stall with fresh straw bedding every day. Our meat comes exclusively from our own production.

Farm sales: Sausages, eggs and other products are now also available in the fridge 24/7. Meat products online.
