# Tour description

**Four days, three huts, two summits**

**Stage 1**
The hike begins at the valley station of the Lünerseebahn cable car. The ascent over the **Böser Tritt** first leads to the Lünersee lake. The **Böse Tritt** is less scary than the name suggests and you experience a beautiful hike with many surprising views of rugged terrain. Once you reach the lake, continue along the right bank until you reach the turn-off to the Totalphütte hut. From here, the trail climbs again until you reach the hut. Then continue to the Schesaplana at almost 3,000 m above sea level, before returning to the Totalphütte.
**Duration:** approx. 5:45 hours
**Overnight stay:** Totalphütte

**Stage 2**
On the second day, you descend from the Totalphütte to the Lünsersee, over the Verajoch and the impressive Swiss Gate - a personal highlight of the tour. You reach the Öfapass and make your way to the Lindauer Hütte. The Lindauer Hütte welcomes you with a well-earned break and plenty of comfort - a perfect reward after an eventful day.
**Duration:** approx. 4 hours
**Overnight stay:** Lindauer Hütte

**Stage 3**
The third day takes you along the AlpkulTour trail, through forests to the Rellstal alpine inn. On the other side of the valley, a leisurely path leads up to the Heinrich-Hueter Hütte. You then venture onto the Saulajoch and further up to the Gipsköpfle (1,975 m), the second summit of the tour. Once there, you will be rewarded with breathtaking views - an unforgettable experience! Then it's back to the Heinrich-Hueter Hütte.
**Duration:** approx. 6 hours
**Overnight stay**: Heinrich-Hueter Hütte

**Stage 4**
The last stage leads from the Heinrich-Hueter Hütte via the Lünerkrinne to the Douglasshütte, where you can round off the four eventful days.
**Duration:** approx. 2:30 hours (to the Douglasshütte)

***Tips:***
*We recommend surefootedness, a head for heights and alpine experience. You can divide the ascent per day and hours according to the weather and your needs.*
*The times given are approximate. Depending on fitness, weather conditions or other circumstances, the walking time may be shorter or longer.*
